1.1. Emblem

The smooth curves describe the liveliness of sports.

The center line colored in purple, gold, and green inspires the image that people get together as one and go forward to the future by heading to a bright red sun, the symbol of the OCA. The purple represents the iris, which is the prefectural flower of Aichi. The gold describes "Kinshachi", the golden tiger-fish roof ornaments and the symbol of Nagoya Castle. The green inspires the high environmental consciousness among people of Aichi-Nagoya fostered through EXPO 2005 Aichi, COP10, and the UNESCO World Conference on ESD. The emblem contains the initial letters of Asia, Aichi, and Nagoya. You can see "A" described by the purple curve and the center line and "N" in the purple and the gold.

1.2. Mascot

"HONOHON " was born from the fiery passion that dwells in the hearts of Athletes, becoming one with Shachihoko, the guardian deity of Aichi-Nagoya.

Aichi-Nagoya have historically been the birthplace of "Kabukimono", eccentric samurai warriors who excelled in scholarship, martial arts, and the arts. Inspired by this tradition, Honohon features red 'Kumadori' makeup around its eyes, resembling the style used in Kabuki theater.

The first session will be open to all Athletes if their Horses have been accepted at the First Horse Inspection, or the re-inspection, if applicable, and the second training session will be open to all Athletes who have their Horses accepted at the second horse inspection regardless of whether these horses were accepted or not at the first horse inspection.

The same process is mandatory for the reserve horse if it has achieved the MER with one of the three or four athletes entered on the definite entries in case it will be substituted into the Team Competition for the athlete in question and the new athlete/horse combination would like to take part in the Jumping Individual Competition (heights of up to 1.55m).

After the Definitive Entry deadline, the combination can not change the Jumping Individual Event that will take part.

The reserve horse cannot be listed in both Jumping Individual Events.

It should be noted that an Athlete may not participate in both Jumping Individual Events, Individual Competition (heights of 1.45-1.50 m) and Jumping Individual Competition (heights of up to 1.55 m).

The Certificate of Capability for the Athlete-Reserve Horse combination must be submitted by the Nomination Entry deadline to participate in the Individual Competition at the heights of up to 1.55 m.

1.2. Competitions

1.2.1. Team Competition

The competition is conducted under Table A, over two rounds. The first round is not against the clock with time allowed and the second round against the clock over a different course.

Both rounds will be over 15 efforts, on the length between 450 and 650 meters, at a speed of 400 meters per minute.

- Competition participation

The team members are eligible to compete only if their Horses have been approved at

the First Horse Inspection or re-inspection.

Horse substitution for the team competition is possible no later than two hours before the first round starts.

- **Draw and starting order**

First round

The draw will determine the sequence of the countries. Following this, each Chef d'Equipe must declare the starting order of the team members in writing. The Chef d'Equipe must indicate which starting position shall remain vacant for the team with only three members. Athletes will be placed on the starting list according to the Nations' order and the declared order: all first riders from each team will be listed first, followed by the second riders, and so on.

Second round

Teams order is reverse of the team provisional classification after the first round. In case of tie, first-round sequence will be maintained. Within each team, the order should be the same as declared for the first round. In case of tie, the sequence of the first round remains.

Teams eliminated in the first round are not eligible to compete in the second round.

- **Jump-off**

The jump-off will be held against the clock at a speed of 400 m per minute over up to seven obstacles.

If teams are tied for first place—based on the aggregate penalties of the best three riders in each round—they will be eligible to take part in the jump-off.

Only one Athlete per team, selected by the Chef d'Equipe, shall compete in the jump-off. The starting order will follow the same sequence as in the second round.

- **Team ranking**

Team provisional ranking after the First Round will be determined according to the total of Penalties of the best three (3) team-member from each team. The same applies to the Second Round, and the final team ranking will be based on the aggregate penalties from both rounds and the total time of the best three team results in the second round.

If there is a tie on Penalties for the first place, a Jump-off will take place.

After Jump-off, the final ranking will be established according to the total of Penalties and time in the Jump-off. Teams not qualifying for the Jump-off will be ranked by aggregate penalties over both rounds and the total time of team incurred in the second round.

Small Tour: FEI Prix St. Georges

- **Competition participation**

The Athlete-Horse combinations will be eligible to participate in the competition only if their Horses have been approved at the First Horse Inspection.

- **Draw and starting order**

The order of starting will be defined by tours, according to the procedures outlined below. The Chef d'Equipe must declare the starting order of the team members in writing by the deadline set by the Sport Manager. If the team is composed of less than 4 (four) Athletes, the first stating positions shall remain vacant.

The drawn for both Tours will take place during the same Chef d'Equipe meeting, following same procedures. The draw for Individual Athletes in the Small Tour will be conducted before the draw for the Big Tour.

The initial draw will determinate the starting order of Individual Athletes. First, an Athlete's name will be randomly selected, followed by the draw to assign their order of starting.

To establish the starting order of the team, the name of the team will be drawn first, followed by the draw to determine its order to go. Both tours will follow the same team order

The stating list will be made up of the individual Athletes placed according to their

designated positions from the draw, and team members inserted sequentially in the remaining places.

The first draw will determine the stating list for the Small Tour, which will start the competition.

- **Team classification**

Team rankings are determined by the aggregated results of the best 3 (three) Athlete-Horse combinations.

If there is a tie in the aggregated results of the top 3 (three) Athlete-Horse combinations, the higher-ranked team will be the one whose lowest-ranked team member has the best score. If it remains a tie, the comparison will move to the second lowest-ranked member, and so on. If all 3 members remain tied, a tied competition will be declared.

- **Individual Classification**

The classification is based on the total percentage achieved by each Athlete. The Athlete with the highest total percentage is ranked first, the second highest is placed second and so on.

If there are ties in the individual rankings, a tied competition will be declared.

The draw will begin with the lowest-ranking athlete group.

The first draw will determine the stating list for the Small Tour, which shall start the competition.

- Individual Classification

The classification is based on the total percentage achieved by each Athlete. The Athlete with the highest total percentage is ranked first, the second highest is placed second and so on.

Ties will not be broken.

2.2.3. Individual Final Competition

This competition will be held on the day following the **2nd Individual Qualifier Competition**, and adhering to the technical specifications below:

- Dressage tests

Big tour: FEI Grand Prix Freestyle

- Athlete-Horses combinations must achieve 60% at least in the 2nd Individual Qualifier Competition.
- The Horses must be accepted at 2nd Horse Inspection.

The Chef d'Equipes may request the substitution of their Athlete- Horse combination up to 2 hours before the competition starts, however, this substitution doesn't alter the already established starting order. The new combination must still meet the participation criteria outlined above.

The new combination must also meet the participation criteria outlined above.

- Draw and starting order

The order of starting will be determined by tours, according to the procedures outlined below.

Based on the combined partial results of both tours, the top 15 combinations after the 2nd Individual Qualifier Competition will be selected, with a maximum of two (2) Athletes per team, in accordance with Article 58.3 of the OCA Constitution and Rules.

Within each tour, the draws will be conducted in reverse order of merit, in group of 5. If there are fewer than 10 Athlete-Horse combinations, the draw will be organized into 2 groups. In case where the division between these groups is not exact, the lower-ranked group will have one fewer Athlete than the higher-ranked group.

The first draw will determine the stating list for the Small Tour combination, which will start the competition.

- **Individual Classification**

The classification is based on the total percentage achieved by each Athlete. The Athlete with the highest total percentage is ranked first, the second highest is placed second and so on.

If there is a tie for the top three (3) places, it will be decided based on the artistic mark. If the tie remains, the higher mark for harmony will decide the ranking, followed by the choreography mark, if necessary.

Combinations that didn't qualify for the Individual Final Competition will be ranked after the last Athlete who completed this competition, based on the partial results after the second-day competition. Any ties will remain as tied places.

- Overview

The Team and Individual Competitions will be run concurrently in a hybrid format competition over three consecutive days, following these technical specifications:

First day: Dressage CCI3* level (the test will be decided by the end of 2025)

Second day: Cross country: CCI2* - L level

Third day: Jumping: CCI3* level

- Competition participation

The Athlete-Horse combinations will be eligible to participate in the competition only if their Horses have been accepted at the First Horse Inspection.

- Draw and allocation of the starting position

The method of draw will be approved by the Technical Delegate.

A draw will take place at the time and date fixed by AINAGOC to determine the nations' order for the First and Second Horse Inspection, Dressage, and Cross-country tests.

The allocation of the starting positions for all Athletes in the Competition will be made after the first Horse Inspection, in the presence of the Ground Jury, Technical Delegate and Chefs d'Equipes.

The total starting places will be divided into eight blocks (A to H) and the Athletes will be allocated to each block as follows:

a) Block A - first Athlete in each team

- b) Block B - twenty-five percent (25) of individual Athletes
- c) Block C - second Athlete in each team
- d) Block D - twenty five percent (25) of individual Athletes
- e) Block E - twenty-five percent (25) of individual Athletes

- g) Block G - twenty five percent (25) of individual Athletes
- h) Block H - fourth Athlete in each team

The Technical Delegate may also approve a rearrangement of the order or number of blocks of teams or individual Athletes where the number of Athletes makes it necessary.

The team members' positions will be filled first according to the draw of countries and the order of team members previously declared, after the Horse Inspection, by the Chef d'Equipe. If there is a team with only three members, the Chef d'Equipe must declare which starting position shall remain vacant.

Athletes in the Individual Competition will be placed by the Chefs d'Equipe in any of the remaining unallocated starting places of blocks B, D, E, or G, free choice in sequence according to the draw of the countries.

Starting order for the Jumping test

Since the individual and team events are conducted concurrently, the starting order shall be determined based on the reverse order of merit from the individual ranking. In the event of a tie, the order established for the dressage test shall prevail.

- **Team Final Classification**

Scoring: for only team-classification reasons, a team member who fails for any reason to complete the Competition will be awarded 1000 penalty points.

Team ranking: the winning team has the lowest total number of penalty points, after adding together the final scores of the three highest placed Athletes in the team.

In the Event of equality between any two or more teams, the classification will be decided by the best combined highest three placing.

- **Individual Final Classification**

The winning individual is the Athlete with the lowest total of penalty points, after adding together, for each Athlete, the penalty points incurred in all tests.

In the event of a tie between two or more Athletes, the classification is determined as written in Art 528.1.6 on the FEI Eventing rules.

As guided by the principles outlined in Article 58.3 of the OCA Constitution and Rules, if athletes from the same NOC place first, second, and third, the bronze medal will instead be awarded to the highest-ranked athlete from a different NOC. A note explaining this adjustment should be included in the Result Book to clarify the difference between the

Individual Final Results and the Eventing Individual Medallist list.

Horse Inspections

The starting order per Nation will be determined by the same draw for the First and Second Horse Inspections, Dressage and Cross-country tests. The team members will present themselves in ascending numerical order according to their Horse numbers within each nation.
